Twelfth Street
Warehouse No. 1

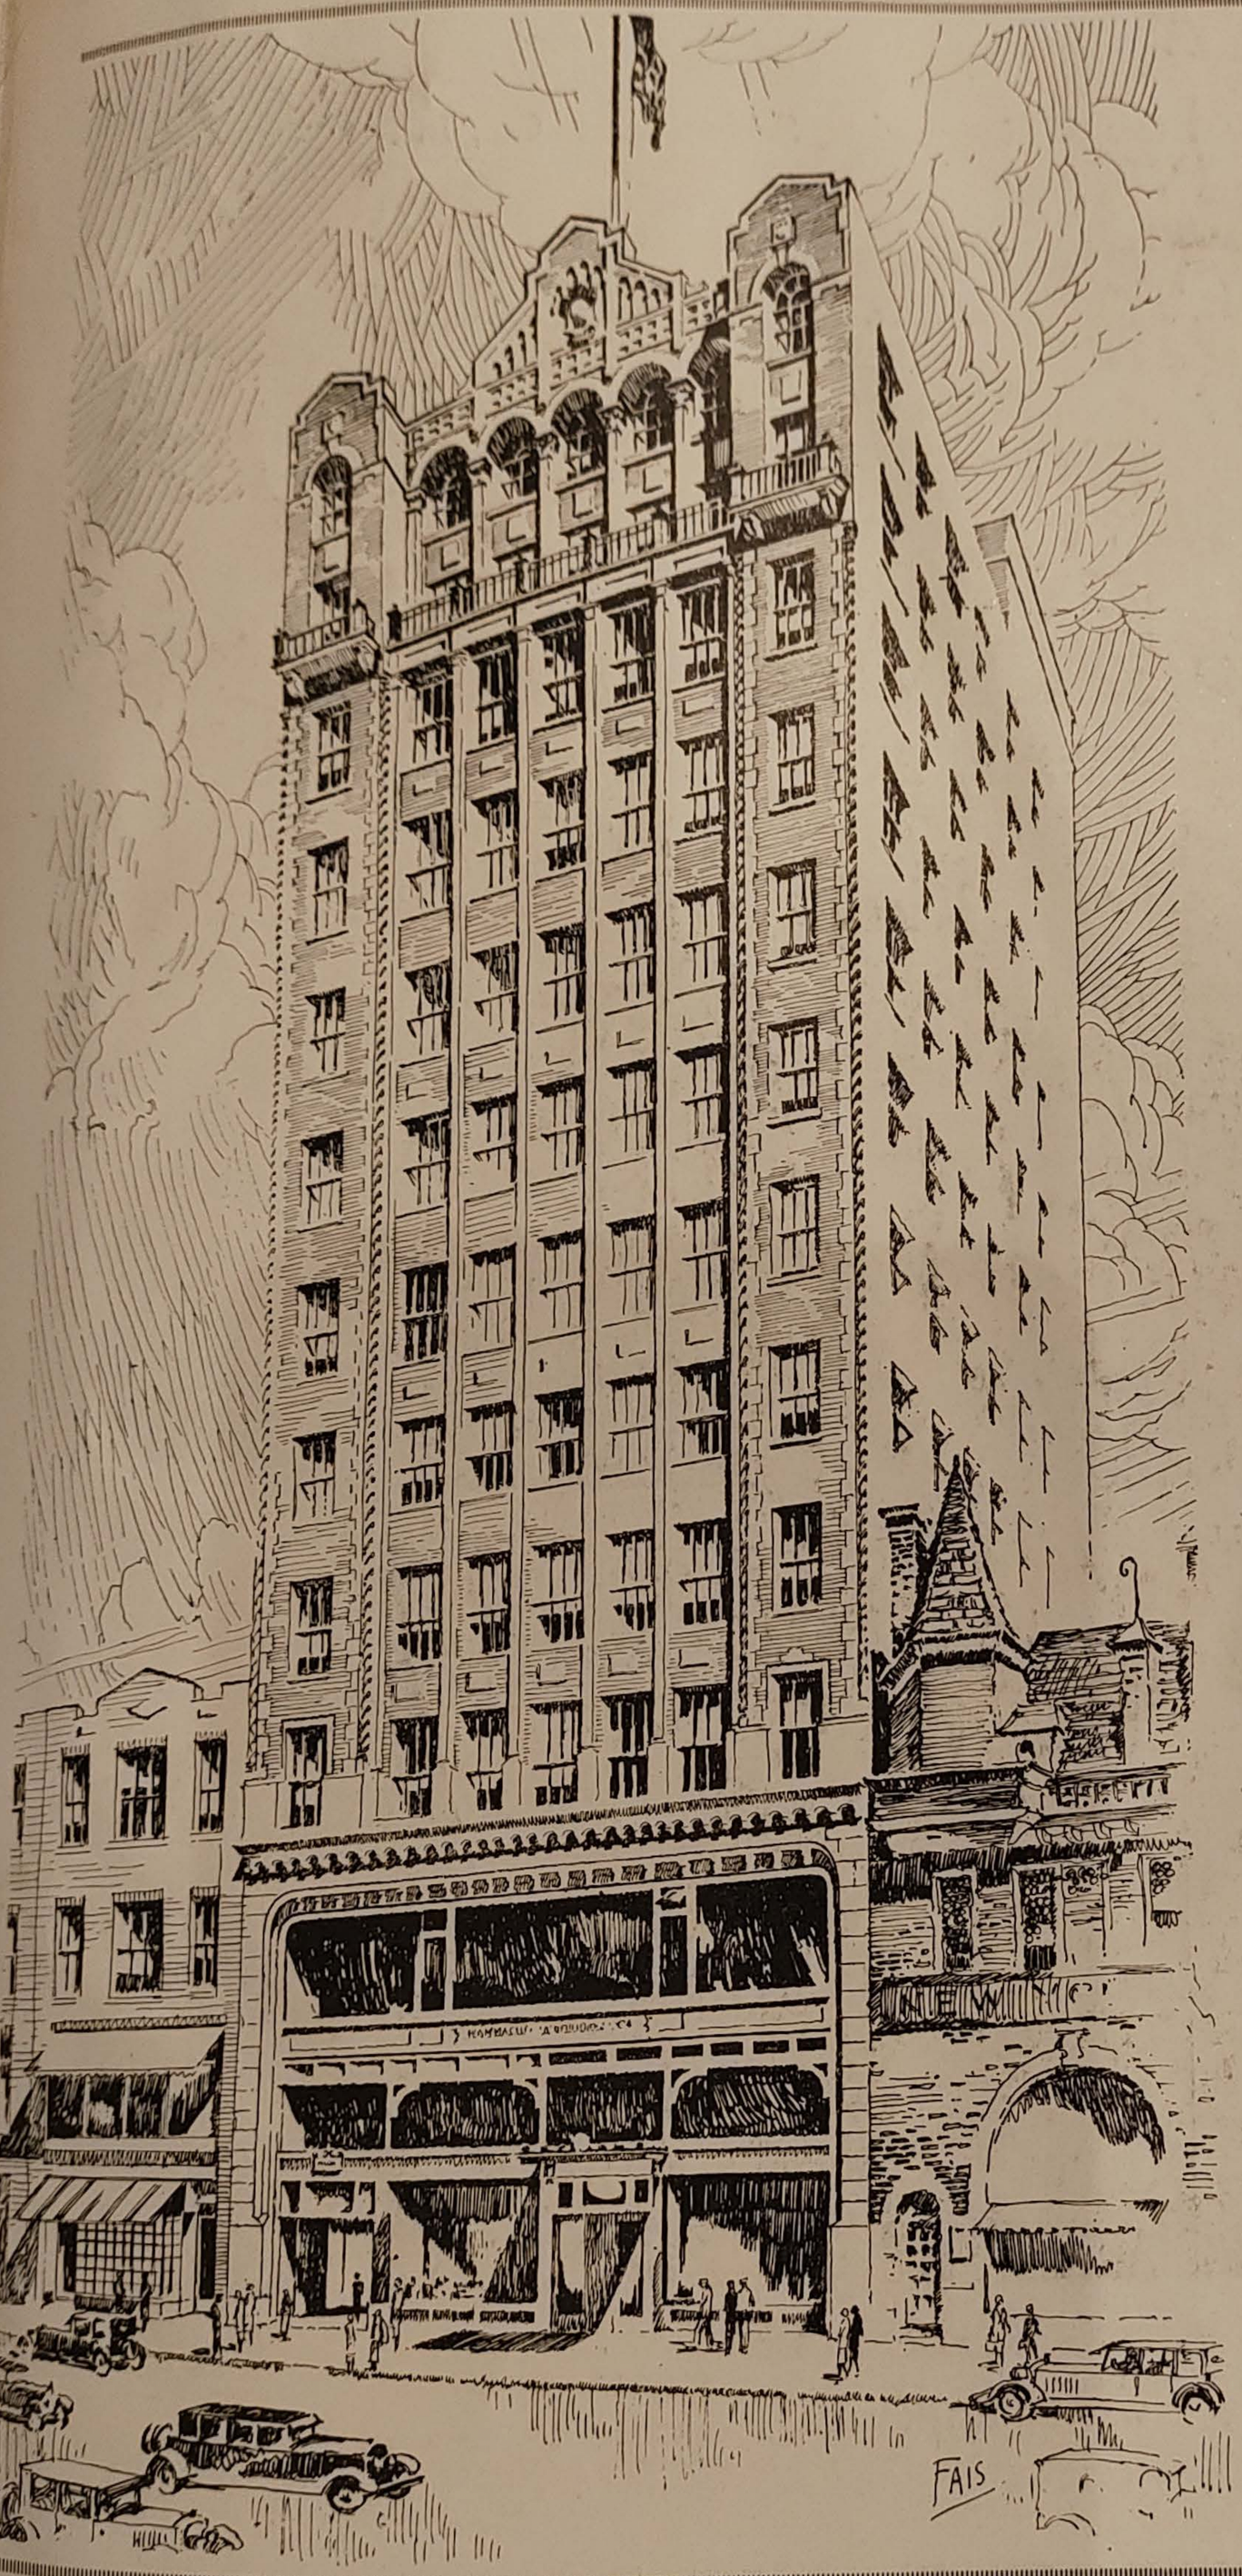
Completely stocked with all supplies. Also houses the private garage for our fleet of motor trucks

Thirteenth Street
Annex

Connected with the main building, and containing the Receiving and Shipping departments, also passenger and freight elevators, rest rooms, lunch-room, cloak rooms, etc.

Our Main Building and Office
127 to 133 Fourth Avenue, S. E. Corner of 13th Street

The Interborough and Brooklyn subway express stations are one block north; the Broadway surface cars one block west; the Fourth Avenue cars pass the door. From the Grand Central, the subway brings you one block from our corner in six to eight minutes; from the Pennsylvania, the Broadway surface cars take ten minutes or so; from the Jersey side, the Hudson Tunnel lands you four rather long blocks away.



Another Addition to
the Buildings of
Hammacher, Schlemmer & Co.

THE March of Progress finds us establishing another step forward—uptown this time.

At 145 - 147 East Fifty-seventh Street near Lexington Avenue.

On and after April 1, 1926, our building on New York's newest crosstown artery of commerce will be completed.

This will be a new branch for retail trade and also for the convenience of many of our customers located in the upper part of town.

We will continue, however, to occupy our main buildings and offices at 4th Avenue and 13th Street for retail and wholesale selling as in the past.

Officers and Directors of Hammacher, Schlemmer & Co., Inc.

JOHN SCHADLER

The Phenomenal Growth of

HAMMACHER-SCHLEMMER & CO.

SURELY the late William Schlemmer, founder of this well-established and daily increasing business, did not realize that his first small pavement-stand in 1848 marked the beginning of a tremendous organization.

His business principles, the keystone of our success, have proved to be based on a solid foundation which is daily strengthened as we progress.

The officers and directors have all grown with the company. Customers with whom they come in contact recognize the ability represented by years of concentrated effort by men who have earned the positions they hold. An intricate business of many details appreciates the personal-interest service that only long experience can render.

The rapid strides which the business has made is one of the outstanding achievements in the hardware business of America. In 1853 the first store at 221 Bowery, which started in 1848, outgrew itself and occupied a larger building at 209 Bowery until 1904.

This in turn was left behind in the march of progress, and the present spacious quarters at Fourth Avenue and 13th Street were occupied. In addition to this building, the increasing demands of the business added two warehouses and now another addition with a new twelve-story building at 57th Street near Lexington Avenue, described upon another page. The business occupies over 150,000 square feet and carries over 100,000 different items, thus indicating the advantage of an infinite variety of items, all of which are carried for their merit as well as service to customers.

With these achievements we continue to further our efforts to always merit the endorsements of our friends.

We are grateful to our friends for their uninterrupted confidence, which shall always be strengthened by our efforts to keep every purchaser satisfied in every way.

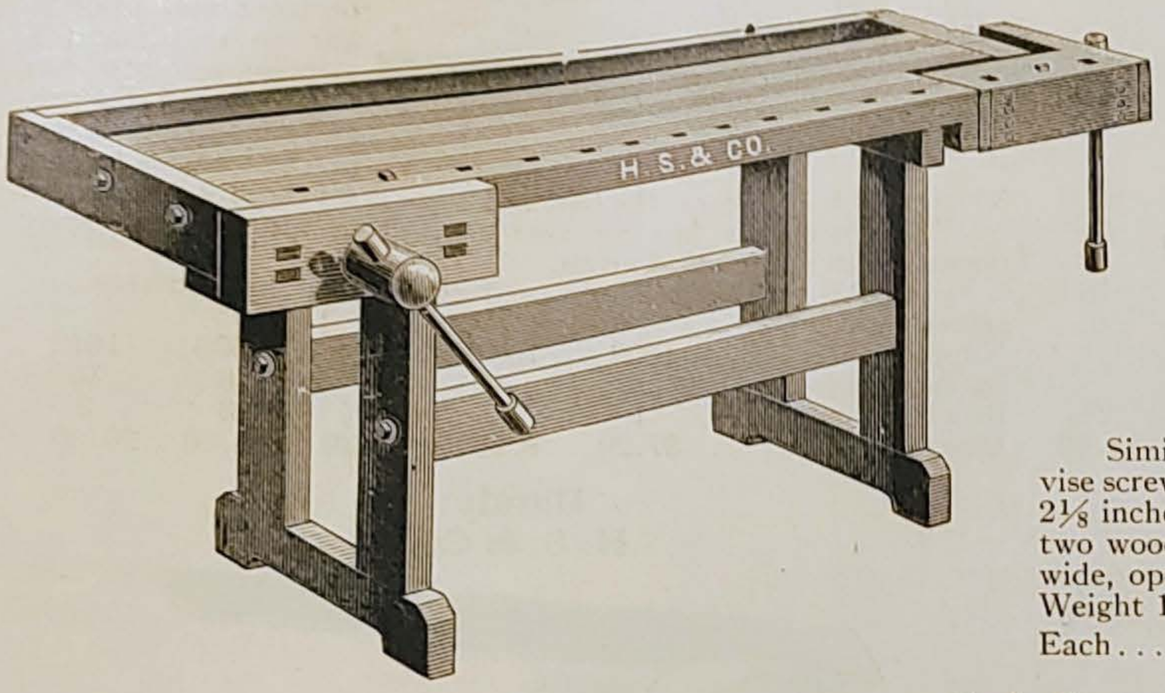
Cabinet Makers Benches

H. S. & Co.

We call attention to the superior quality of our Benches. They are not the ordinary kind made to sell in competition with the cheapest, but are made of thoroughly seasoned, kiln-dried stock, carefully and scientifically put together. The lumber is cut and prepared a long time before use, giving sufficient time to dry and cure, and will not warp or crack after a short period, as the inferior and cheaper-priced benches so often do.



Style B

Substantially built of hard white northern maple, thoroughly seasoned.

These Benches have heavily glued and well-finished working tops and are equipped with two Christiansen saw-cut-threaded wood bench screws, 2½ inches in diameter. Height, 34 inches; maple top, about 16 inches wide; tool recess, 8 inches wide; legs, 2 x 3 inches; top, 78 x 24 inches; shipping weight, 180 pounds.

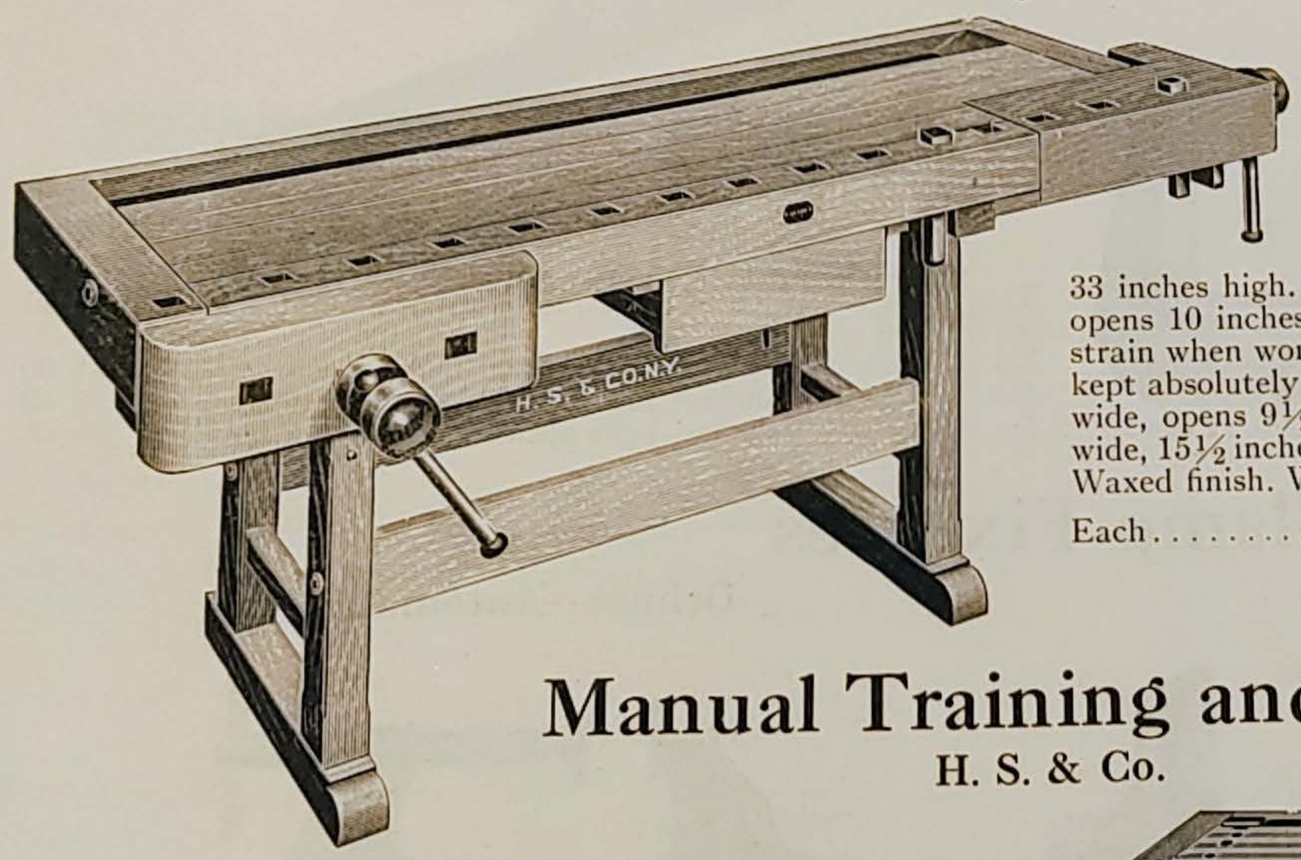
Each $70.00

Style M

Similar to style B but smaller. Made of maple with hickory vise screws. Top, exclusive of vises, is 51 inches long, 20 inches wide, 2⅛ inches thick, with 6 inches recess. Stands 33 inches high. Has two wooden stops. Vise screws 2 x 17 inches. Head vise 14 inches wide, opens 12 inches. Tail vise 6 inches wide, opens 6½ inches. Weight 115 pounds.

Each $60.00

Style E

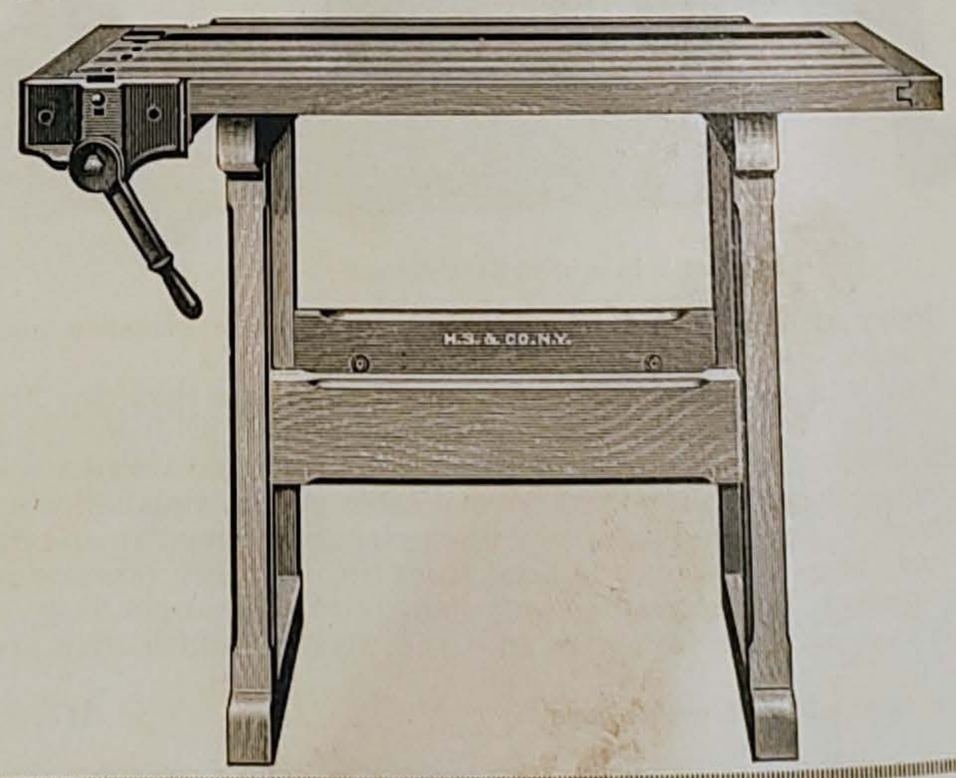


This is a hand made imported Bench, very solid and heavy, the stands being made of 4-inch square timbers. The bolsters are bolted to the main portion of the tops. Made of Austrian red beech, with 1¼ inch iron vise screws. Top, exclusive of vises, is 78 inches long, 24 inches wide, 2⅝ inches thick, with 4 inches front strip, 6 inches recess. Stands 33 inches high. Has two iron stops. Head vise is 22 inches wide, opens 10 inches and is provided with a device for equalizing the strain when work is clamped at one end of the vise. The vise jaw is kept absolutely at right angles to the screw. Tail vise is 6¼ inches wide, opens 9½ inches, with locked corners. Drawer is 15 inches wide, 15½ inches deep, 4½ inches high. Vise screws 2⅜ x 17 inches. Waxed finish. Weight 230 pounds.

Each $120.00

Manual Training and Home Benches

H. S. & Co.

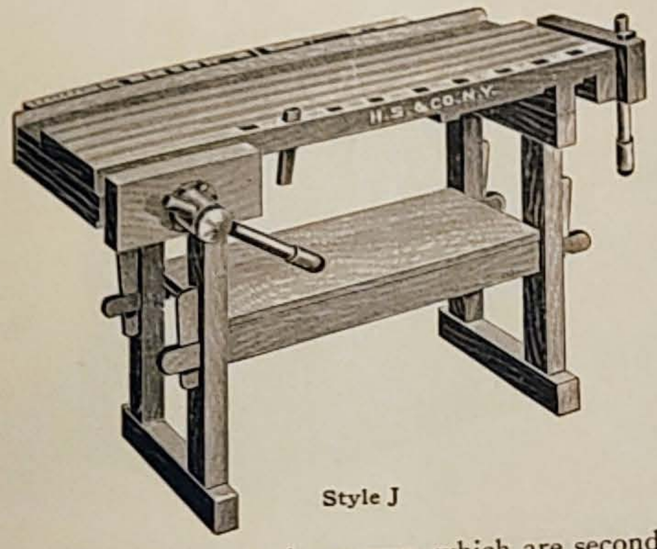


This Bench is designed primarily for the home work shop. It is made of well seasoned maple throughout and is regularly fitted with No. 3 Rapid-Acting Vise, but can be supplied with No. 10 Vise if desired. Steel Bench Dog. Top is 42 inches long, 22 inches wide, 1¾ inches thick, with 7 inches recess. Weight 90 pounds without drawer. Drawer is 5½ inches high, 22 inches wide, and 19 inches deep.

No. 101 Without drawer (as illustrated), each $45.50
No. 102 With Drawer, each 56.00

Manual Training and Home Benches

H. S. & Co.



Style J

Made of maple, except vise screws, which are second growth hickory. The top, exclusive of vises, is 48 inches long, 18 inches wide, 2 inches thick, with 6 inches recess. Stands 32 inches high. Has two wooden stops. Head vise 12 inches wide, opens 8½ inches. Tail vise 12 inches wide, opens 10 inches. Vise screws 2 x 17 inches. Weight 105 pounds.

Each..... $45.00

Style R

Same as Style J, except head vise is a No. 230, size 2, maple faced rapid acting vise.

Each..... $62.00

Style L

This Bench, while it is designed to meet the demand for a low-priced article and is of light construction, is still well-made and serviceable. Made of maple, except vise screws, which are hickory. Top, exclusive of vises, is 42 inches long, 20 inches wide, 2 inches thick, with 6 inches recess. Stands 32 inches high. Has two wooden stops. Head vise 12 inches wide, opens 10 inches. Tail vise 12 inches wide, opens 8 inches. Vise screws 2 x 17 inches. Weight 90 pounds.

Each..... $35.00

Combination Benches and Cabinets

H. S. & Co.

Style S

This Bench is the Style R Bench, with drawers and cupboard added. Top drawer, 18 inches wide, 15½ inches deep, 4¼ inches high. Middle drawer, 18 inches wide, 15½ inches deep, 4½ inches high. Bottom drawer, 29 inches wide, 15½ inches deep, 6¼ inches high. Cupboard, 10 inches wide, 16 inches deep, 11¼ inches high. Head Vise is a No. 230, size 2, maple faced, rapid acting vise. Weight 155 pounds.

Each..... $90.00

Style P

Same as Style S, except that head vise is similar to one on Style J.

Each..... $68.00

No. 075

The Bench top is 50 inches long, 22 inches wide, 2¼ inches thick, made of strips of solid maple, tongued and grooved and glued together. Tool recess 7 inches wide. Stands 33½ inches high. Top is equipped with a rapid acting vise and adjustable metal planing stop.

The Cabinet is made almost entirely of oak, with solid brass hardware. The bottom drawer is fitted with saw racks and is 29½x16x6½ inches. The top and middle drawers are 18¾x16x6 inches, while the cupboard is 9½ x 16½ x 14 inches. The end tool racks are 14¼ inches wide and 22 inches high, inside measurements. Approximate weights: Boxed, 275 pounds; not boxed, 200 pounds.

Each..... $135.00

Machinist or Garage Benches

H. S. & Co.

No. 27

Made of hard maple shellaced. The top is 48 inches long, 23 inches wide, and 2 inches thick. Stands 38 inches high. Drawer is 30 inches wide, 17½ inches deep, 5 inches high.

Without vise, each $44.00

No. 28

Made of hard maple, shellaced top, is 48 inches long, 23 inches wide and 2 inches thick. Stands 38 inches high. Three drawers, each 23 inches wide, 19 inches deep, 8 inches high. Cupboard, 30 inches high, 20 inches deep and 10½ inches wide.

Without vise, each $72.00

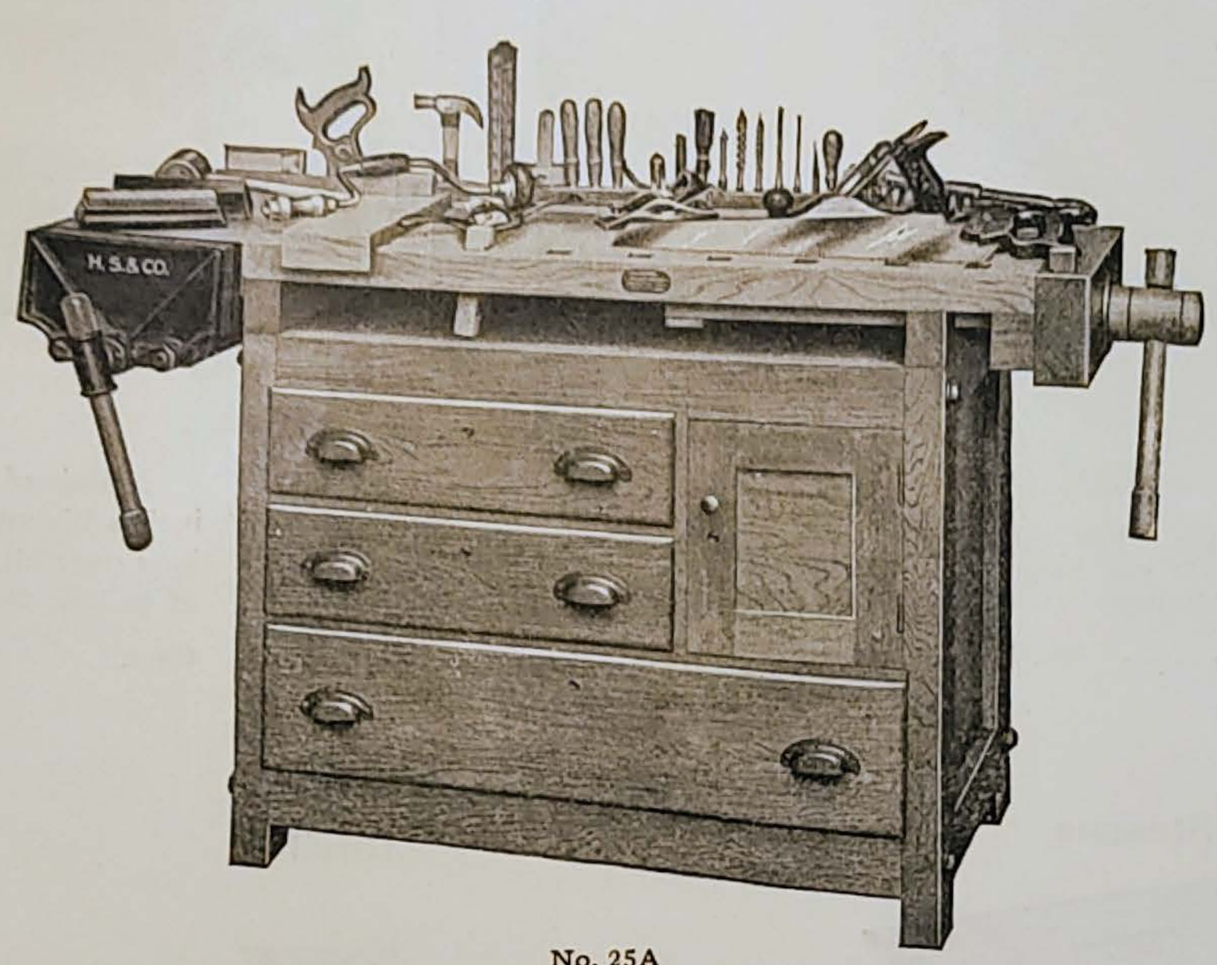
Manual Training Outfits

H. S. & Co.

For Wood-workers

Individual Equipment



No. 25A

While designed primarily for manual training use, they make excellent outfits for home use. The tools are all of the highest grade, fully guaranteed. The benches are well made of selected and thoroughly seasoned maple, very rigid and strong, and we take pleasure in recommending them.

We are often asked to suggest a moderate-priced Bench Outfit. If conditions are normal and the appropriation limited, we invariably advise No. 24. This outfit includes our standard "J" Bench, Bench Hook, and 26 best quality tools as listed—an assortment which contains all the necessary tools for a general equipment for all around work.

List of Tools in Outfits Nos. 24, 24A, 25 and 25A

Buck Bros. Handled and Sharpened Firmer Chisel, ¼ inch.
Buck Bros. Handled and Sharpened Firmer Chisel, ½ inch.
Buck Bros. Handled and Sharpened Firmer Gouge, ⅜ inch.
Disston Back Saw, No. 4, 10 inches.
Disston Hand Saw, No. 7, 22 inches.
Hammond Adze-eye Nail Hammer, No. 3.
Stanley Iron Block Plane, No. 9½.
Stanley Iron Smooth Plane, No. 3.
H. S. & Co. Gimlet Bit, 3/16 inch.
H. S. & Co. Gimlet Bit, ¼ inch.
Russell Jennings Genuine Auger Bit, ⅜ inch.
Russell Jennings Genuine Auger Bit, ½ inch.
Millers Falls Bit Brace, No. 323, 8-inch sweep.
Rose Countersink, No. 10, ⅝ inch.
Disston Hardened Blade Try-Square, No. 5½, 6 inches.
Stanley Beech Marking Gauge, No. 64½.

Manual Training Outfits

H. S. & Co.

We wish to impress upon all who are interested in manual training work, that the tools in these various outfits are all of the highest grade. Our hobby since 1848 has been to handle only the best, and our extended experience has proven time and again that only the best tools obtainable should be used for manual training. In the hands of beginners, tools are usually put to severe and undue strain and unless quality is there they are bound to give way. Every tool is warranted to be perfect. The various outfits as listed are not intended to cover all requirements, but were carefully planned to form a nucleus or start which may be enlarged as necessary.

For Woodworkers

Individual Equipment

For those desiring a less expensive equipment than the No. 24 listed on page 292, we suggest Outfits Nos. 22 or 22B. The tools and benches are of fine quality and the difference in price is due principally to the quantity and not to quality. These outfits contain bench, bench hook, and 17 tools and are the smallest equipments we recommend for practical work.

List of Tools in Outfits Nos. 22 and 22B

1 Hammond Adze Eye Hammer, No. 3.
1 Stanley Block Plane, No. 120.
1 Buck Bros. Handled and Sharpened Firmer Chisel, ¼-inch.

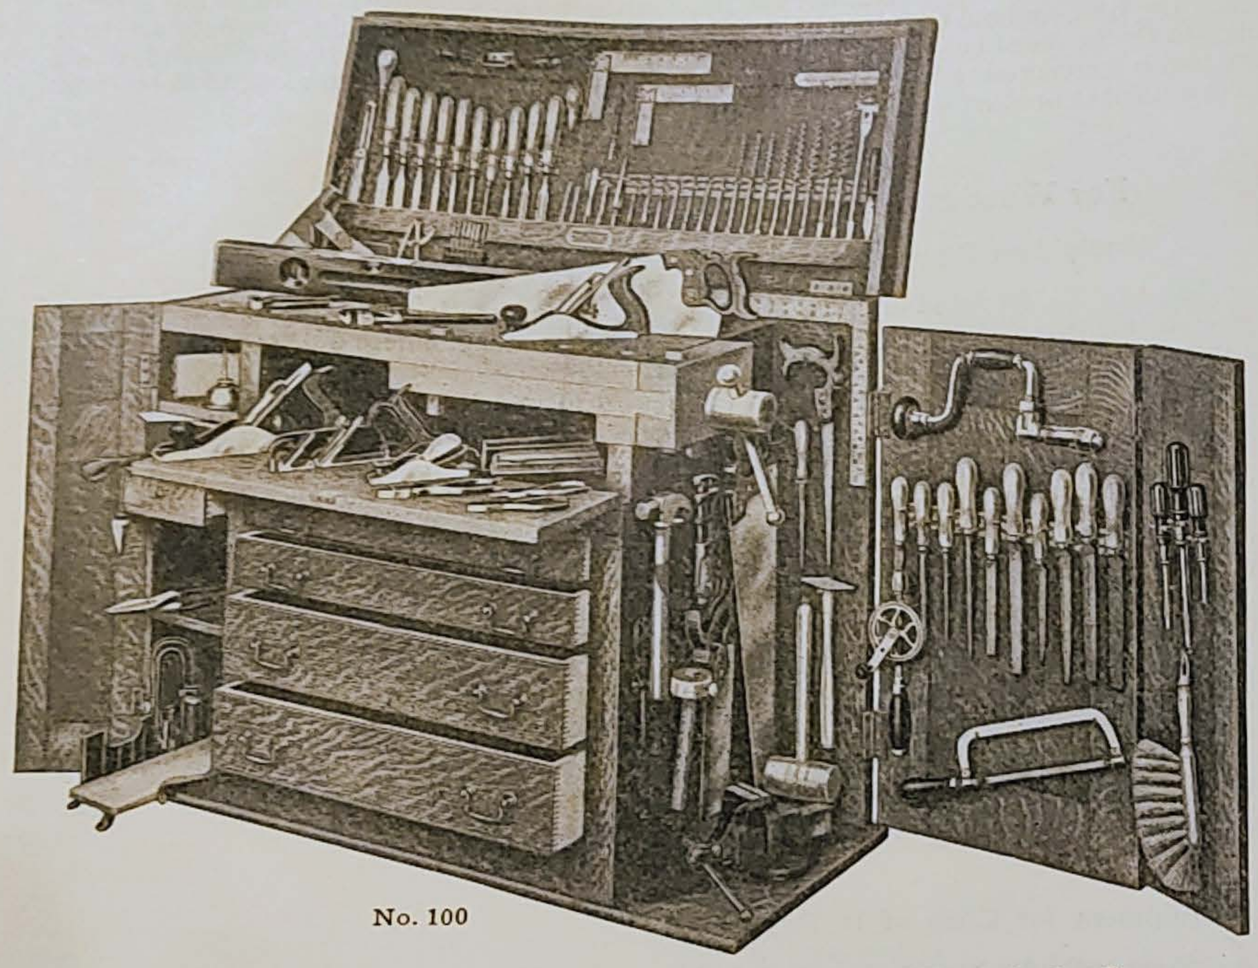
Tool Outfits

H. S. & Co.

"Gnome Brand"



No. 100

This outfit is contained in a Combination Bench Cabinet which is unique in construction. The illustration shows fully its many desirable features, among which are its conveniently arranged drawer and closet space, side opening and hinged top. The bench top is made of seasoned maple, is absolutely rigid and supported by strong uprights which rest directly on the floor. When the cabinet is closed, the bench top as well as all tools are inside, thus making it a fine piece of polished furniture. Trimmed throughout with solid brass locks and handles. The cabinet dimensions are as follows: Length, 47 inches; width, 19 inches; height, 35 inches. The outfit contains about 100 different tools, all of the highest grade, as may be noted from the detailed list below.

Polished oak, has a wooden vise with 1¾-inch screw, and double bench stop, and the bench top is arranged for their adjustment.

List of Tools in Outfit

Buck Bros. Handled and Sharpened Firmer Chisels, ⅛, ¼, ⅜, ½, ⅝, ¾ and 1 inch.

Tool Outfits

H. S. & Co.

"Gnome Brand"

No. 55

The cabinet (wall type) for this outfit is made of polished solid oak, with locked corners; is trimmed in brass, well finished, and high grade in every detail. The outside dimensions are 33 inches in height, 22 inches wide, and 10 inches deep, and the door is divided to open in the center. When open, the width across entire front is 44½ inches. There is room in the drawer for the utility Box which is a small tray divided into compartments having an assortment of nails, tacks, staples and screws. The illustration shows 52 different tools and their compact arrangement. The tools in this outfit are the best obtainable.
